Principal's foreword

Introduction

This report highlights Goodwood State School's profile. It outlines important information on our school's organisational structure, curriculum offering and the teaching and learning environment that is Goodwood State School. Our school is committed to individual student growth and extensive development across all years of primary schooling in Literacy and Numeracy. We place a strong emphasis on "the whole child" in helping them to have successful and happy lives.

School progress towards its goals in 2013

The school's overall target goal is to achieve school average scores and percentages higher than the national, state and like-school averages in all Literacy and Numeracy areas. Goodwood State School is also committed to the goal of ensuring that 100% of Year 3/5/7 students score above the national minimum standard for all areas of NAPLAN. The school is making excellent progress to achieving its goal. Goodwood State School will continue to strive for its target goal of consistent improvement across all year levels and outstanding performances in Literacy and Numeracy throughout 2014. In 2013 our major school improvement goal was the improvement of writing and reading. We have made significant gains in this area. Staff have completed Professional Development for reading and writing that follows the Sheena Cameron model. We have implemented the concepts learned and have shared with our community the prowess in writing our students are developing through sharing on parades, a display at the Childer's show and in our newsletter. This improvement agenda is continuing in 2014.

Future outlook

Goodwood State School has high performance standards and expectations for its students and staff. The school is focused on the consistent improvement of the students' academic ability especially Literacy and Numeracy and the development of students' social, sporting and cultural performances. Goodwood State School places a strong focus on the "whole child" including the social and emotional well-being of all students to enhance their likelihood of happy and successful lives.

Goodwood State School is currently implementing a pedagogical framework based on Marzano's Art and Science of Teaching in conjunction with the Explicit Teaching model to enhance teaching and learning practices. We regularly work with and discuss assessment data to identify ways of ensuring we are meeting the educational needs of all students and to best target our resources. All teaching staff regularly meet to discuss and plan ways of best implementing the roll-out of the National Curriculum Key Learning areas, which we deliver through the Education Queensland Curriculum into the Classroom (C2C) units.
